

The Florida Association of Governmental Fleet Administrators is proud to partner with the Emergency Vehicle Technician Certification Program to offer the first in a series of certifications to our membership. **L-1 Law Enforcement Vehicle Installation** is the first to be offered in the series. Class instruction and testing will be done on the same day. Please make sure all participants understand the class and test commitment which will be from 8am to approximately 7:30 pm. Cost share for each technician will be \$40, which will include instruction time, registration with EVT and cost for taking the test. An application for the EVT test must be submitted for each Technician taking the class. FLAGFA will pay the cost of the test and pay the registration for those who have not tested before. This will come from the cost share and FLAGFA matched monies. The cost of the test is non-refundable once scheduled.

Please note the times and location scheduled below:
