

Friends,

In light of the continuing response to COVID-19, FLAGFA is working to reschedule the spring conference to May 27-29. We'll be contacting all who have signed up and have vendor spots, parking spots, or registrations to coordinate this reschedule to ensure as full satisfaction as possible.

The Shores and Spa will be canceling rooms and issuing a new registration link to FLAGFA by Monday March 16, 2020. More information to follow.

As a professional organization, it's our obligation to provide a safe and healthy environment for our members; it's our top priority. As the situation surrounding COVID-19 continues to evolve, we're prepared to respond and ensure that we are following the official guidance from the Centers for Disease Control (CDC) and State of Florida officials.

On Monday March 9, 2020, Governor Ron DeSantis declared a state of emergency in Florida.

On Thursday March 12, 2020 Governor DeSantis acted to stop the spread of COVID-19 in Florida by postponing or limiting mass gatherings. "I am recommending local municipalities and private entities to strongly consider limiting or postponing mass gatherings in the state of Florida."

We're adhering to the suggestions of the U.S. and state public health guidelines as they are developing with regards to the COVID-19 virus. As the COVID-19 situation is evolving, we strongly advise that you review, from the most trusted source, the U.S Centers for Disease Control and Prevention (CDC) health notices related to this outbreak. These notices are updated as more information becomes available and, if there are any changes, they can be found here:
